

Materials:

- Paper
- Scissors
- Glue
- Leaves
- Googly eyes (optional)

SNAKE LEAF CRAFT

 **Collect leaves of different colors, shapes and sizes.**

 **Cut a snake tongue shape out of red construction paper (or regular white paper and color red). Choose a leaf that looks like a snake head, rounded and pointy. Glue the snake tongue to one end. Glue both to a sheet of white construction paper. Draw the shape of a snake to be your guide for where you glue the leaves for the snake body.**

 **Draw eyes or glue a pair of googly eyes onto the head to give your leaf snake a whimsical and friendly expression.**
